10.6 Export Regulations / Export Control. Recipient shall not export, either directly or indirectly, any product, service or technical data or system incorporating the Evaluation Materials without first obtaining any required license or other necessary approval from the U.S. Department of Commerce or any other governing agency or department of the United States Government. In the event any product is exported from the United States or re-exported from a foreign destination by Recipient, Recipient shall ensure that the distribution and export/re-export or import of the product is in compliance with all applicable laws, regulations, orders, or other restrictions of the U.S. Export Administration Regulations and the appropriate foreign government. Recipient agrees that neither it nor any of its subsidiaries will export/re-export any technical data, process, product, or service, directly or indirectly, to any country for which the United States government or any agency thereof or the foreign government from where it is shipping requires an export license, or other governmental approval, without first obtaining such license or approval. Recipient also agrees to implement measures to ensure that foreign national employees are authorized to receive any information controlled by U.S. export control laws. An export is "deemed" to take place when information is released to a foreign national wherever located.

10.7 Special Terms for Pre-Release Materials. If so indicated in the description of the Evaluation Software, the Evaluation Software may contain Pre-Release Materials. Recipient hereby understands, acknowledges and agrees that: (i) Pre-Release Materials may not be fully tested and may contain bugs or errors; (ii) Pre-Release materials are not suitable for commercial release in their current state; (iii) regulatory approvals for Pre-Release Materials (such as UL or FCC) have not been obtained, and Pre-Release Materials may therefore not be certified for use in certain countries or environments or may not be suitable for certain applications and (iv) MIPS can provide no assurance that it will ever produce or make generally available a production version of the Pre-Release Materials. MIPS is not under any obligation to develop and/or release or offer for sale or license a final product based upon the Pre-Release Materials and may unilaterally elect to abandon the Pre-Release Materials or any such development platform at any time and without any obligation or liability whatsoever to Recipient or any other person.

ANY PRE-RELEASE MATERIALS ARE NON-QUALIFIED AND, AS SUCH, ARE PROVIDED AS IS AND AS AVAILABLE, POSSIBLY WITH FAULTS, AND WITHOUT REPRESENTATION OR WARRANTY OF ANY KIND.

10.8 Open Source Software. In the event Open Source software is included with Evaluation Software, such Open Source software is licensed pursuant to the applicable Open Source software license agreement identified in the Open Source software comments in the applicable source code file(s) and/or file header as indicated in the Evaluation Software. Additional detail may be available (where applicable) in the accompanying on-line documentation. With respect to the Open Source software, nothing in this Agreement limits any rights under, or grants rights that supersede, the terms of any applicable Open Source software license agreement.
